Commercial & Mining Compliant Vehicle Fitout Specialist

Jaram Australia

Our commitment to you!

Established in 1975, Jaram Australia has been built on hard work, with a reputation for solid, high-quality products and outstanding customer service.

At Jaram Australia, we are a dynamic, committed team that works hard to create your perfect work vehicle. We will offer you the best advice on the right equipment for your needs. We have a massive range of proven quality products to suit every budget and need.

Getting it right- our mission is to give you maximum efficiency from your vehicle. From the time you pick up the phone to the time you leave, our aim is to make your life easier.

This build book has loads of ideas and concepts, along with the proven configurations and styles that have been refined over the years to bring you the most up to date vehicle systems available.

Come in and visit our new showroom, with many concepts displayed in actual vehicle bodies. You'll appreciate how easy it is to plan your fit out with experienced and friendly assistance from the team, and you'll be surprised at how soon you can be back on the job with your completely Jaramized vehicle.

Jaramize your van

Seat Covers

Jaram supply tough canvas seat covers designed to last! Made from tough uniquely wound fibre, these covers won't let water penetrate through to the seat material and can be wiped clean easily.

Cargo Barriers

Protect the occupants and the cargo by fitting an approved cargo barrier. Seen here fitted with a Red Dirt Universal Wheel Carrier.

1

Roof Rack

Light weight, strong extruded aluminium construction.
This roofrack can have it's cross members set to suit your load carrying needs.
Fibreglass ladder friendly, many accessories available.

2

Van Shelving

Strong, flexible choices of shelving that can be configured to suit your needs.
Combine with your choice of bins to make finding what you need quick & convenient.

3

Full Length Drawer

Can be locked into position every 300mm, 400kg carrying capacity.
Can be segmented to create better use of space.
Open ended for easy loading of heavy equipment.
Maximum extension so items at rear of drawer can be reached easily.

4

Side Opening Drawer

Drawer can be opened from left or right of vehicle.
Rated up to 400kg and is lockable.

5

Heavy Duty Ply Floor or Rubber Matting

Create a flat workable floor either as a platform over drawers or straight to the floor of your van. Makes moving heavy loads safer and protects the vehicle floor.

6

Bazooka Tube

Convenient storage for conduit & PVC Pipe etc. UV treated and available in 100mm or 150mm diameters. Screw fit ends for quick access and reinforced for safe carrying.

Ventilated Gas Bottle Holder

Store your gas bottle safely and securely in this enclosed box that allows any leaks to be vented out of the vehicle.

Gas Bottle Restraint

Safely secure your gas bottles to your vehicle to avoid them rolling around and damaging your tools or vehicle interior. Available in two sizes.

More...

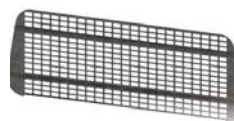

- Floor mats
- Ventilation
- Tie-down straps
- Towbar
- Rear step
- Rear light protector
- First Aid Kit

Jaramize your Ute

Spring Lift Kit

An inexpensive but high quality way to increase rear suspension travel for Utes, for improved ride and handling under load. Easy to install.

Cab Mesh Barrier

Mesh barrier screens are designed to protect the occupants of a utility from objects projected at the rear window. Strongly constructed for mounting to existing cab bars. Available in black for better visibility.

1

Toolbox

- These long-lasting galvanised steel toolboxes give a lifetime of service.
- Gives you 'one hand' convenience to open & close.
- Our rubber seal provides perfect protection from dust & moisture.
- Powder coating gives the longest surface protection from rust.
- Perfect security with robust construction and 3 point locking system.

2

Spare Wheel Carrier

- Conveniently access your spare wheel.
- Secure locking.
- Designed for most wheel and tyre sizes.

3

Folding Vice Mount

Folds away simply when not in use. No wasted space. Compatible with most vice sizes. Vices also available.

4

Red Dirt Light Bar

Easily mounts to most vehicles. Compatible with most mining accessories. Can withstand the stresses of mounting flags & aerals. Internal space designed to discreetly contain wiring.

5

Towbar

Vehicle specific & load rated.

6

Striping

High visibility mine-spec vehicle striping. Reduce the risk of accidental damage by improving your vehicles visibility with reflective tape.

7

Roof Rack

Tracklander precision-fits to your vehicle with no damage. Designed to flex, protecting your vehicle from structural damage in rough terrain. Fully welded mesh base provides virtually unlimited tie down points and a quiet, no rattle ride. Powder coated 2 ½ times normal thickness for durability.

Bash Plates

Jaram under body Bash Plates provide protection for your vehicle in the harshest environments. Available in 3mm thickness steel, galvanised and power-coated in black.

Safety Equipment

- Fire extinguisher
- Wheel chocks
- Wheel nut indicators
- First Aid kit
- Rollover protection

More...

- Snorkel
- Side steps
- Seat covers
- Work lights
- Floor mats

Commercial & Mining Bars
Roll Over Protection Systems

**MADE
TOUGH
FOR HARD WORK**

- Large range of leg sizes available to achieve a level bar combination.
- Advanced new Alloy bar design in stock.
- Available in both "Aero" and "Square" profiles.
- Nyloc nuts withstand vibration.
- Huge range of accessories.
- Mounts directly to vehicles, tool boxes or canopies.
- Hi-density rubber strips to prevent vehicle damage.
- Conceals unsightly wires within bar.

Aero Bar

Streamlined Perfection. The "Aero" Bar has been designed to minimise wind resistance.

Square Bar

Original, Proven Design. This classic steel design is both practical and hard wearing.

Aluminium Commercial Bar

Lightweight Aluminium Construction. Superior Strength from the Unique Profile Design.

Internal Framework

- Our Internal Canopy Bars can fit most canopy shapes.
- Carrying up to 200kg* is now possible using the Red Dirt Internal Canopy Bar system.
- Powder-coated for a long lasting finish.
- Minimal cargo room is lost with our space saving design.

* Vehicle structure and terrain can effect this rating.

Mounting Options

The choice of gutter, track or even canopy mounting options for Red Dirt bars means that you can fit Red Dirt bars to any vehicle setup.

Internal Roll Bar

Helping you meet your requirements for vehicle occupant safety, the Red Dirt rollover protection bars have been developed in accordance with relevant safety standard guidelines, and cleverly engineered to integrate with the vehicle's interior. Single-hoop, twin-hoop and twin-hoop roll-cage models available.

Testimonial:

"Very solid racks. Very impressed."

Dave

Cab Mesh Barrier

Mesh barrier screens are designed to protect the occupants of a utility from objects projected at the rear window. Strongly constructed for mounting to existing cab bars.

Available in black for better visibility.

Bash Plates

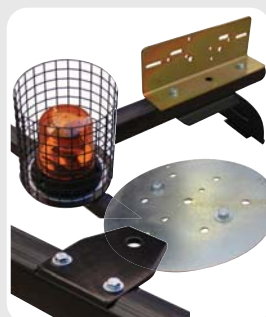

Jaram's under body Bash Plate provides protection for your vehicle in the harshest environments.

No drilling or welding required.

Oil changes are made simple, no removal of the plates required.

Damaged plates can be purchased individually, no need to buy another whole set.

Available in 3mm galvanised steel, and powder coated in black. Other colours available on request (additional charges may apply).

Red Dirt Accessories

The Red Dirt range includes a full range of accessories to make your life easier. Specifically designed brackets cater for a huge range of lighting configurations, aerials and other mining/trade related products.

DID YOU KNOW?

Red Dirt bars are certainly made tough. In a vertical lift test, a gutter mount Red Dirt bar system sustained vertical lifting force of over 290kg without any slippage, distortion or damage to the bar, leg mount or clamp.

Roof Rack Test conducted to AS1235-200

Commercial Roof Rack

Stylish, Aluminium Roof Rack to make your load carrying experience a dream!

1

Wind Deflector
Wind deflector to minimise wind noise.

2

End Caps
Stylish moulded nylon end caps.

3

Rubber Buffers
Rubber Buffer Strips stops load movement and vibration. Ideal protection for fibre glass ladders.

4

Side Plates
Side rail strength allows for a greater unsupported span whilst maintaining ample strength.

5

Suits most vehicles
Adjustable cross members means the Dreamrider can be adapted to suit most vehicles.

6

Side Rails
Special side rail extrusion accommodates bolt-on Dreamrider accessories.

maxiRACK

Commercial Roof Rack

Engineered for superior strength. Individually designed to suit your vehicle.

Testimonial:

"I found your business very professional when quoting and you did a magnificent job! The MaxiRack is exactly what I was looking for – it looks great, and is strong and sturdy. Very happy to recommend you".

Tim - Irrigation Contractor

- ① **Quiet Travel**
Built in wind deflector to minimize wind noise and vibration.
- ② **Carry More - Safely**
Truss style V-Bracing is a key part of the clever engineering that makes the racks very strong but light weight. The principal is the same as is used in long spanning roof trusses, ensuring maximum support along the length of the rack.
- ③ **Not Easily Damaged**
All joints are profiled to give maximum strength and a professional finish.
- ④ **Protection For Your Vehicle**
Attaching your MaxiRack to your vehicle incorporates a unique and flexible bolt on mechanism. This means, the rack remains flexible and will move with the stresses of the vehicle and load being carried.

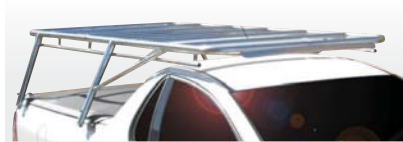

- ⑤ **Light Weight, But Strong**
Heavy duty aluminium construction (steel available on request).
- ⑥ **Stable While Carrying Heavy Loads**
Vehicle specific bracing is used to maximise the strength of the rack.
- ⑦ **Made For Standard Sheets**
MaxiRack is made to handle standard 1220mm wide sheets between the side rails (can be further customised).

Single Cab Well Body MR AL01

Heavy duty commercial rack that runs from rear of vehicle to the windscreen.

Flat Top MR AL04

Heavy duty commercial rack that has no side rails, allowing greater load carrying flexibility for items such as gyprock sheeting. Strong tie down rails.

Tray Back Single Cab MR AL02

Very heavy duty commercial rack made from steel or aluminium. Rack runs from rear of the vehicle to front of the windscreen.

Well Body Dual Cab MR AL03

Very heavy duty commercial rack made from steel or aluminium. The rack runs from the rear of the vehicle to approximately half the cab length.

Over Canopy

MaxiRack can be manufactured to fit over fiberglass canopies using our internal canopy supports. An external leg mount option is also available for canopies to facilitate extra strength.

Profiled Canopy Frame CF 01

Peaked centre assists water run off and rear mounting uprights profiled so canvas fits flush with outside of tray.

Load Runner *The Ultimate Ute Rack*

(Reg Design Pend)

Testimonial:

'Finished product was 'perfect':

Kevin - Builder

Commercial Roof Rack

Designed to blend elegantly with the flowing lines of your vehicle, this low profile Ute rack gives an air of sophistication and provides visual balance for your vehicle.

Unique Design:

Stunning looks, with aerodynamic curved legs that will complement your vehicle.

Protection for your Vehicle:

Tried and proven bolt on brackets support the rack and the load without damaging your vehicle.

Incredible Strength:

Load Runner has unique side flats which provide additional strength to the rack over the whole length.

TOOLBOXES MADE FOR LIFE

Standard Door

Toolbox can be opened without lowering the ute tray sides.

Full Door

Full door gives greater access to storage space usually for tray backs without the drop-sides.

Underslung Toolbox

Maximise your storage space with a toolbox in front or behind wheel arches and angled to match. Fits neatly and professionally. Suitable for left or right sides.

Adjustable Internal Shelves

Quickly and easily adjust the shelf height to suit your purposes. Optional bins can be incorporated to maximise your shelf space and keep smaller items tidy.

3-point Locking System

You only need one hand to lock or unlock the toolboxes over its whole length. Locking at three points, the tool box is extremely secure and cannot be prised open from the edges.

Weather Seal

Now you can keep your tools and fittings in pristine condition with the water and dust proof weather seal.

Toolboxes that last

Megachest tool boxes give you the longest lasting surface protection from all the elements, and is finished with a tough powdercoat both inside and out.

Heavy Duty Construction

The Megachest is a fully welded toolbox, constructed from heavy gauge 1.6mm galvanised steel for superior strength.

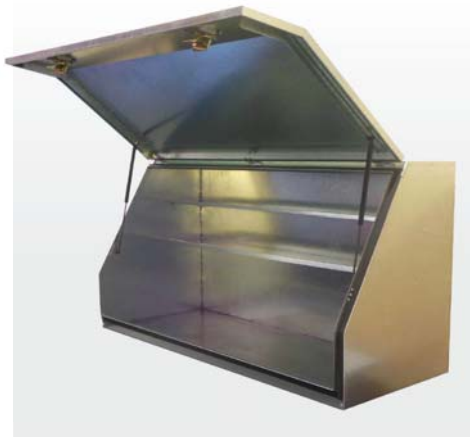

Gas Struts

Megachest toolboxes incorporate heavy duty Gas Struts for easy access to your toolbox.

Megachest Silver

- Galvanised steel construction.
- Fully sealed toolbox.
- A range of sizes is available.
- Secure locking system.
- Two convenient storage shelves.
- High Lift Doors

Megachest Modules

Jaram Australia's Modular Drawer System will help you get more from your Mega Chest toolbox than ever before.

Available in a choice of 4 different configurations to suit your needs.

Testimonial:

"I think your tool boxes are great and the service team loves the layout as well. The modules are a great idea for our smaller fittings".

Ryan - Truck Sales/Service.

Tracklander™ 4WD Roof Racks

PRODUCT BY
JARAM
AUSTRALIA

Testimonial:

'I conducted some comprehensive research into 4WD roof racks and your product is by far the best on the market for strength and durability.'
Glen - 4WD owner

Benefits of the Tracklander

- ① **Protection for your vehicle**
Tracklander fits with no damage to the vehicle.
- ② **Strong yet flexible construction**
Designed to flex, protecting your vehicle from structural damage in rough terrain.
- ③ **Carry more, safely**
Tracklander distributes the weight evenly.
- ④ **Quiet travel**
Tracklander's unique design includes a "high impact acrylic wind deflector".
- ⑤ **Welded mesh base**
Provides virtually unlimited tie down points. Fully welded for strength - no rattling.
- ⑥ **Support your gutters**
Unique gutter support system reinforces and protects your gutters.
- ⑦ **Security**
With the correct tools removal and refitting of Tracklander is quick and easy. The security of your roofrack is not compromised.
- ⑧ **Tough, easy-clean finish**
Powder coated 2½ times normal thickness for durability.
