

Tradesales - Pallet Racking

Australian industry has changed a lot since we started out in 1976. And so have we. Our company, product range and custom solutions have evolved with, and

for, our clients, year after year.

[Tradesales](#) began back in 1976, manufacturing a range of workshop storage products for the mining sector and heavy industry in Australia.

Today, we're the workplace storage and equipment partner of choice for a growing number of clients throughout Australia. With our extensive network of manufacturing suppliers, we've long been able to provide the most cost-effective workplace products for clients spanning a host of sectors.

Crucially though, our role goes beyond that of a reliable importer, stockist and distributor. Our Australian owned and operated business has evolved to become a complete solutions provider.

Products Offered

Tradesales is a workplace storage solutions company that specialises in workshops and workplaces. Our aim is to fulfil your requirements so that you can improve productivity, efficiency, and safety. With over 35 years of experience, you can count on us to have the storage products you need.
