brother At your side.™

We are also an Authorised Reseller of Brother Laser Printers, Faxes and Multifunctional Machines. Brother Industries is a Japanese Company and is a leading manufacturer in the small office, home office environment.

Able Business Machines also specialise in the Refurbishment of Photocopiers. These are ex finance / government machines traded in. We strip them down to the chassis and replace all of the consumable parts, give them new machine warranty and sell them for around half the price of a new machine. Brands available include Toshiba, Kyocera, and Panasonic.

We service all makes of Copiers, Printers, Faxes and Multifunctionals either on-site or in our Malaga Workshop. Our service rates are around half of the price of the bigger companies, combined with our team of experienced and trained technicians we can provide service which is second to none. We can generally get a technician out to your place of business on the same day.
