# Cable Safety with **Cable-mate**

**Organised  
Efficient  
Safe**

Keep floorspace and work areas safe and tidy and reduce risks of slips and trips with Cable-mate from Swift.

Cable-mate protects your cables and hoses from pedestrians and machine traffic resulting in longer life and assists in meeting OH&S obligations to provide a safe place of work (OHS ACT 2000 Section 8).

Allow for "No-Fuss" re-routing of cables and hoses and negate the risk of maintenance costs.

**Cable-mate is the safe and simple solution to electrocution and trip hazards in the workplace.**

## FEATURES

- Permanent and temporary installations
- Holds to any steel surface.
- Each magnetic Cable-mate supports up to 25kg.
- Adjustable HDPE strap is designed to support various numbers and sizes of cables and hoses.
