

Western Sheetmetal Insulation & Asbestos Removal Pty Ltd

Scaffolding Division

WSI&A is a multi-services company, established over twenty (20) years and now with offices and workshops located in Geelong and Melbourne.

The Scaffolding Services Division was established in 2009 to complement the other core business divisions and to provide our clients with complete services solutions.

We continue to provide complex and basic solutions to our clients across a broad range of industries in the commercial, industrial and domestic markets, specialising in:

INDUSTRY	SERVICE
Petro-Chemical	Kwikstage Scaffolding
Oil and Gas	Tube & Clip
Power Generation	Support Scaffolding
Construction	Swing Stages
Manufacturing	Stair Access Towers
Infrastructure	Roof Protection
Demolition	Hoarding & Coverways
Maintenance & Special Projects	Rigging & Scaffold labour Services
Mining & Resources	Engineered Computations

Our team is extremely adaptable and responsive including the abilities to meet the needs associated with specific projects, sites and equipment. WSI&A have in excess of 500 tonnes of associated scaffolding equipment that is directly owned and controlled by us. As we do not rely on second and third party suppliers we are able to offer a dedicated, reliable and efficient service.

Our significant investment in infrastructure combined with our Design and relevant Industry experience delivers a faster, more reliable and cost effect Scaffolding Solution, tailored to the specific needs of each project. Our teams are multi ticketed and accredited to meet all the required industry, safety and quality competencies.

At WSI&A we continue to strive to ensure we provide our clients with the best possible solution. With our technical skills, knowledge and Industry experience we can handle anything from the complex to a stock standard *SCAFFOLDING* requirement.

Please call **03 9399 9409** for any scaffolding enquiries.
