

Sheetmetal Division

WSI&A is a wholly owned Australian multi services company, established over twenty (20) years with modern offices and workshop facilities located in Geelong and Melbourne.

With a highly experienced and skilled team we offer a range of various services from site maintenance to workshop design and fabrication and on site inspection.

We continue to provide complex and basic solutions to our clients across a broad range of industries in the commercial, industrial and domestic markets, specialising in:

INDUSTRY	SERVICE
Petro-Chemical	General Sheetmetal Fabrication
Oil and Gas	Cladding piping/vessels
Power Generation	Ducting/Extraction Units
Construction	Stainless Steel fabrication
Commercial/Domestic	Hand railing/stair casing
Defence	Roof/Wall Replacement
Food/Dairy	Acoustic panels/Screens
Municipalities	Customised fit outs
Maintenance and Special Projects	Specialised welding

Our objective is to provide safe and productive outcomes and to ensure that all our clients needs are adhered to when undertaking site activities, with each job being done in accordance with the specification needs and meeting the required standards. We have continued to provide our core values to each job or project that is required.

Our modern workshop facilities offer a wide range of equipment from folders, guillotines, presses, form machines, rollers and welders. We specialise in tailoring your needs and with our resources can deliver short to planned and scheduled projects on time.

At WSI&A we continue to strive to ensure we provide our clients with the best possible solutions. With our technical skills, knowledge and Industry experience we can handle anything from the complex to stock standard *SHEETMETAL* requirements.

Call 03 9399 9409 for all your *SHEETMETAL* needs.
