Mission Statement

Family Run – Powered with Care.

At A.SAL Electrical Services, the right tradie isn't just the one who finishes the job. It's the one who stands behind it. Since 2011, our family-run business has delivered safe, compliant electrical, Level 2 and air conditioning work for homes and businesses across Botany and Sydney.

Every job is personally managed and completed by Adolfo, our fully licensed Level 2 electrician, and never subcontracted. We carry the appropriate insurances, price transparently, and back our work with a lifetime workmanship warranty and 24/7 after-sales support.

Whether it's a new air conditioner, a switchboard upgrade, or getting your home ready for solar and clean energy, we treat every home like our own. We may not always be the cheapest quote, but we aim to always be the one that delivers long-term value and genuine peace of mind.

What we stand for

- Family-run since 2011
- All required electrical and Level 2 licences
- Appropriate insurances
- Every job personally managed and completed by Adolfo – never subcontracted
- Transparent pricing and like-for-like quotes
- Lifetime workmanship warranty
- 24/7 after-sales support
- Electrical, Level 2 ASP and air conditioning, including solar and clean energy ready upgrades
