

Thinking By Design

Redstack (formerly IMAGINiT Technologies) is a leading provider of design technology and services to engineering and architecture professionals. With over 15 years of local experience, we provide the expertise, training and support to help companies realise the full power of their design technology. We partner with the world's leading technology providers such as Autodesk, SAP, IMAGINiT Technologies and RAND Worldwide to provide local service with the support of global resources.

Redstack delivers comprehensive services to help companies harness the full potential of their design technology and gain real competitive advantage on the path to innovation.

Redstack is a leading provider of Autodesk software solutions and an Autodesk Authorized Training Center® (ATC) partner. All of our locations are supported by a team of engineering and design technical specialists, focused on developing real-life business solutions for their local clients

Our Industry-Leading Expertise and Services

We provide the expertise, training and support companies need through our comprehensive suite of services.

Software Solutions

As a leading provider of Autodesk software, we will help define your business requirements and guide you through the process of evaluating different software solutions. Once we have a thorough understanding of your needs, we create a solution specific to your design process, personnel and workflow.

In addition to supplying Autodesk software, Redstack are also the exclusive suppliers of IMAGINiT's Scan To BIM and Clarity for Revit Server products.

Professional Services

With 15+ years of experience, we help you redefine, integrate and optimize your design processes and workflows based on a deep knowledge of industry best practices. Our assured implementation methodology has been proven to effectively lower the risks associated with a failed implementation.

We offer a range of professional services including:

- Data Management
- Process Automation
- Software implementation and setup
- Customised software development
- Systems Integration

Driving Real Advantage

Your Ideas + Our Resources
= Proven Power

Our combined companies can help you harness the full potential of your design technology, gaining you competitive advantage.

By working with Redstack, you will have access to:

- **A leading provider of Autodesk software products**
- **Autodesk Authorized Training Centers**
- **Best in class training, implementation and support offerings**
- **A team of technical specialists with a broad range of expertise and experience**
- **Dedicated individuals who are experts in their product lines across different industries**
- **National training locations and local offices to provide service and support in multiple geographies**

Training and Mentoring

Our award-winning training and mentoring programs help you maximize your most valuable asset – your people. We are one of the largest Autodesk Authorized Training Center partners in the Asia Pacific region. With class-based, online, on-demand and private class options, our award-winning training programs are some of the most extensive and flexible options in the industry.

"Instructor had a very good knowledge of the program and was able to clearly show everything needed and was able to answer all questions asked. Very impressed with the instructor and this course." J. Harrington, Thales, NSW

"I found 1 on 1 mentoring with IMAGINiT Technologies extremely beneficial in moving from 2D to 3D design." G. Keough, Lead Designer, Coastal Living by Design, SA

Support

We offer a variety of technical support options including subscription-based full-service and self-service technical support, with 24/7 access to our industry-leading searchable online solutions, online activity reports and more.

Hardware

Have your hardware custom built specifically for your needs.

Our technical specialists can specify the correct hardware for your unique situation. This ensures you get the hardware you need without paying for features you don't require.

Contact us for more information on 3D Connexion mice and full CAD workstations, completely customised, setup and installed to meet your specific needs.

Industries We Serve

- ▶ Building / Architecture
- ▶ Geospatial
- ▶ Civil Engineering
- ▶ Industrial Design
- ▶ Manufacturing
- ▶ Design Visualization
- ▶ Government
- ▶ Education

Who is Redstack?

Redstack (formerly IMAGINiT Technologies) is a leading provider of design technology and services to engineering and architecture professionals. With over 15 years of local experience, we provide the expertise, training and support to help companies realise the full power of their design technology. We partner with the world's leading technology providers such as Autodesk, SAP, IMAGINiT Technologies and RAND Worldwide to provide local service with the support of global resources.

Are You Enabling a Culture of Innovation?

In our experience, strategically optimizing technology creates a cause-and-effect cycle that goes far beyond dollars and cents.

Investment in technology and training leads to...

- **Optimized workflow and more highly skilled people, which leads to...**
- **Higher-quality output and greater productivity, which leads to...**
- **Greater revenue, happier people, and ability to attract and retain top talent.**
