

New LED safety flares the best option in an emergency

Be Seen in the Dark. Emergency LED flares (ELFs) are now available from Australian distributor Secure-AWARE-Sydney. LED technology is taking the world by storm and its use in safety equipment is the latest development. These 'Save Me' flares are environmentally friendly, safe and non-toxic. No need to worry where the children are with these flares! They are battery operated and rechargeable and come in a strong plastic casing. Two year warranty.
