HIGH-TECH GENERATORS

**EH3000 Digital Inverter Generator**

The stylish design of the EH3000 inverter generator is ergonomically and mechanically engineered specifically for the serious Camper, caravanner, campercan & motorhome enthusiast. The workmanship of EH3000 is exceptional and the quality and refinement will ensure total dependability over the lifetime of the generator.

Maximum power output 2800 watts , with a continuous load rating 2400 watts. Unobtrusive noise levels, between 56-61Db, (which is equivalent to a person having a conversation), makes this generator one of the quietest in its class.

The sturdy lightweight design of this generator is only 34kg, and is easily moved with the assistance of the inbuilt wheel and handle kit. In addition to this the EH3000 inverter generator has multiple grip handles specially design to allow 2 people to safely lift and relocate the generator, thus eliminating the potential of one person injuring themselves when attempting to lift the generator.

### WARRANTY

Your HTG Digital Inverter Generator has many features designed to ensure the operation is both, simple, safe and most importantly dependable. All HTG Generators come with 2 year parts and labour warranty for domestic use and 1 year for commercial use & as an added bonus, warranty can be transferred to the new owners within the warranty period, thus maintaining the resale value of your generator.

## Specifications - EH3000 Digital Inverter Generator

### Dimensions and weight

Length × width × height	625mm×350mm×492mm
Dry weight	34 kgs

### Engine

Model	166Fi
Engine	4-stroke, overhead valve, single cylinder
Displacement(Bore×Stroke)	171mml (66mmX50mm)
Compression ratio	8.5: 1
Engine speed	3800rpm (With SMART throttle switch OFF)
Cooling system	Forced air
Ignition system	Full transistor
Oil capacity	0.50L
Fuel tank capacity	4.8L
Noise	56-61 dB (@ 7 metres)

### Generator

AC OUTPUT	Rated voltage (V)	240
	Rated Frequency (Hz)	50
	Rated ampere (A)	6.7
	Rated output (Watt)	2400W
	Max output (Watt)	2800W
DC output		Only for charging 12V automotive batteries. Maximum charging output: 8.3A

PH:1300 743 526
