Controlled Access schools - colleges universities

Access control and key management is a major concern for University and College Estate Managers – so imagine being able to control access with no need for any expensive wiring.

SALTO Systems stand alone electronic locks allow you to lock and unlock lecture rooms automatically. If a key card is lost or stolen it can be instantly deleted without the need or cost of changing locks and retro-fitting an existing lock with a SALTO 'intelligent' escutcheon is a 10-minute operation.

- Entrance and Exit Doors
- Perimeter Doors
- Student Accommodation
- Classrooms and Departments
- IT Departments
