Bizibrush

Professional Painting

THE LEADING PAINTING AND DECORATING SPECIALIST FOR INTERIOR
AND EXTERIOR RESIDENTIAL AND COMMERCIAL PAINTING SERVICES
COUNTRYWIDE

Monthly Success Story

"Painting always starts out like a great idea - especially picking out the colors and envisioning that your place will end up looking like a dream home. However, somewhere between the buying painting supplies, taping off walls, and the actual painting you realize painting is the worst!

We recently moved in to a place with flesh-colored walls so the color had to go. However, our place also has intricate trims meaning hours upon hours of taping alone. We bit the bullet and decided to hire professional painters to paint the entire place.

Within a day of contacting Bizibrush, they were able to stop by and gave us an estimate. And two

Weeks later, we had a freshly painted apartment.

A two-guy crew worked hard to get our place done - the job was extremely clean and polished - not a single drip on the white trims. **"You can't really get service much better than this."**

I suggest taking advantage of this service! Having these guys do a great job is totally worth it - the value for money is well worth it to avoid the frustration that comes with painting & you'll be so happy with the end result!"

Danny and Katie Warrnambool

About Bizibrush

As the leading painting and decorating specialists Bizibrush has many advantages over dealing with a one-man band. All our work is guaranteed and our customers have the added security that Bizibrush has customer satisfaction as its primary objective. We deliver quality finishes to suit your lifestyle with superior workmanship.

Hooray at the beach

Toby loves fun

Swim safely, Toby - Bizibrush Mascot!

Certain dog breeds are more water-friendly, especially those bred who retrieve water-fowl — retrievers, spaniels, and the like. Other dogs, for anatomical reasons, will have a harder time swimming because of short snouts, short legs, etc. But the bottom line is that it really depends on the individual dog. There are Labs that love the water, and there are Labs that hate the water. Toby, company owner John Dwyer Labrador companion

and unofficial Bizibrush mascot, is unfortunately one of the latter. This fact was discovered during an impromptu trip to the beach. His frightened avoidance of the water eventually clued John into the fact that Toby could not swim. Lessons were apparently in order.

We are used to seeing dogs swim — the “doggie paddle” its named for them — but swimming doesn’t come

naturally to all of them. Certain dogs panic in the water, and if they frantically slap their front legs trying to lift out, you have a dog that needs a life vest to stay afloat.

And so, Toby wore his doggie life vest proudly that sunny day on the beach. His unabashed handicap provides us all with a humorous reminder that there is no shame in “safety first”.

Space Flight

On August 7, 1959 -

The United States launched *Explorer 6*, which sent back a picture of the Earth. The satellite, popularly known as the “paddlewheel satellite,” featured a photocell scanner that transmitted a crude picture of the earth's surface and cloud cover from a distance of 17,000 miles.

Testimonial of the Month

“After painting my guest bathroom last year I had vivid memories of all the fun of sanding, taping, painting, drips, fumes, and cleanup. With that box checked, when it came time to repaint my master bedroom and bathroom I decided to go with the pros.

I contacted 4-5 companies for quotes. Some of the quotes were outrageous and some of the companies were unprofessional and unresponsive. The one with the best mix of value and professionalism was Bizibrush.

I couldn't be more happy

with the results. *“Watching the guys they sent work their magic and cut in with just brushes without the need for tape convinced me I will never paint again.”* The work quality was excellent, and I've got no complaints. “

Derek Geelong

Preserve Your Paint Job

These days, we're more apt to paint walls than to wash them. But what's the hurry? If you're happy with the color and have a beautiful paint job, you can make your paint last and avoid consuming more paint.

Oily Stains

Grab a bottle of Jif cream cleanser at the supermarket, pour cap full into ¼ bucket of water and use a damp dish

cloth to wipe over the stains and remove, for stubborn stains apply Jif directly onto your cloth and wipe the stains off. Wipe off any Jif residue with clean water on your cloth and move quickly to avoid softening the paint surface.

Surface stress

Flat paint can create a beau-

tiful effect, but it isn't always the best choice from a cleaning perspective. Semi-gloss and high-gloss surfaces are smoother and easier to clean. They are also recommended for rooms with higher humidity, such as bathrooms and kitchens.

Let's Talk Safety

Having a newly painted room or wall is an exciting change for a home, yet it is not without its potential hazards. The proper respect for the task mixed with common sense and a few safety guidelines will ensure your experience goes without mishap.

1. Ventilate the area to be painted, opening all doors and windows. Do not let a freshly painted room be occupied, particularly not by older people, children, or pets.
2. Wear a respirator if the area being painted cannot be adequately ventilated, and stay in the room for short periods only.
3. If you have purchased the paint yourself, do not store it near any heat source such as a water heater or fireplace, and avoid smoking in a freshly painted room.
4. If you store paints in your home, make it hard to reach. If at all possible, the paint should be on a high cabinet or locked away. You don't want children to have easy access to it, especially since paint has a tendency to be pretty colors and look like the finger paints children use all the time.

On July 31, 1932 - Enzo Ferrari retired from racing. In 1950 he launched a series of cars under his name. The team was founded by Enzo Ferrari, initially to race cars produced by Alfa Romeo, though by 1947 Ferrari had begun building their own cars. It is the oldest surviving team in Grand Prix racing, having competed since 1932, and statistically the most successful Formula One team in history with a record of 15 drivers' championships.

Family Home Renovation A Success

"Painting our living room and hallway was step one in our planned home renovation. When it became clear that neither my husband or I was up to the job, I sought professionals and I got Bizibrush. John came out to give us an estimate; he arrived on time, and we went through a de-

tailed checklist of what exactly would be needed.

I'd chosen a Glidden color (softest juniper!) for the living room. Three guys showed up that first paint day, and after a quick walk-through to confirm the specifics, they set to work.

"Did I mention that they were courteous and went above and beyond!" At the job's end, John told me he'd gone ahead and repaired some slight water damage he'd discovered in one spot, no extra charge!

"I'll definitely be using Bizibrush again!"

Debra Warrnambool

Painting Tips and Tricks

Quite a few little-known techniques go into proper painting. In fact, mastering these techniques is how we make our living. You, too, can paint faster without sacrificing quality by using the two tips outlined here. They'll save you time and leave you with a professional

-looking finish.

Strain the Paint. Even if you open your paint right after bringing it home from the paint store, you can still have small chunks or strands of hard paint in it. If those end up on the wall, you'll have to pick them out and re-roll the area. So spend two

minutes straining out the goobers.

Cover paint to keep it fresh. Paint dries fast, even paint in your roller tray. If you need to take a break for more than 10 minutes, place a lid on your paint bucket and a damp cloth over your paint container.

"These guys went out of their way to make sure I was happy with the job."

ATTENTION Home Painters AT LAST!! The Long Awaited Painting and Decorating Report that reveals the secrets to choosing the right home Painter....

“Special FREE Report Gives You Proven Ways To Avoid Costly Painting And Home Decorating Mistakes!”

Leading Painting Expert lifts the lid on how you can avoid frustration and get the home of your dreams...without the hassles and heartache!

By: Colin Richardson

Spend just a few minutes with John Dwyer a 25 year veteran of the Painting industry and you'll begin to realise why Bizibrush has a loyal following of people in the Warrnambool and surrounding areas..that trust Bizibrush. John Dwyer, Painting expert and proprietor of Bizibrush, is a man on a mission.

John's energy and enthusiasm for his clients is contagious.

John Dwyer releases his long awaited Painting report

His continued success in an industry facing an uncertain business climate is due in no small part to the skill and expertise he and his company have built over the long haul. Customers walk into his office with hopes, dreams, fears and apprehension...and walk out with a plan that he sees through to completion, turning

their Painting projects into beautiful homes. John sees first hand how difficult it can be to plan, decorate and paint your perfect home. And he doesn't pull any punches: "I still have trouble believing how much half truths and misinformation is out there in the Painting game today. In fact: Most Painting and renovating advice bandied about is outdated or just plain wrong. Worse still, the wrong advice can cost you time, money and even affect your marriage and home life"

John has built an excellent reputation.

Couples, singles, renovators, Painters and real estate investors flock to his offices in Warrnambool to seek his expert advice on the best way to tackle their home Painting and Decorating plans.

A little bit of knowledge can be DANGEROUS!

"I don't have exact stats, but the stress some couples face when they are Painting their perfect home is up there among the top causes of divorce! On the other side of the fence, one of the worst nightmares for a Painter is also an inexperienced couple who wants to get in there and "do it themselves" as much as possible" says John. My goal is to help normal, every day Australians avoid stress and get the

best possible outcome for their homes more easily and simply than they thought possible. And that's why John has released his long awaited Painting and Decorating report "**7 Costly Mistakes Most People Make When Choosing A Home Painter...And How To Avoid Them**" "I see common mistakes on a daily basis that can so easily be avoided. I wrote the report so people could avoid these common mistakes. It's a short, quick read so they don't have to wade through a lot of material at once.
