SCREENING FOR ALCOHOL

Lifeloc FC10 Plus is a premium fuel cell breath alcohol tester that provides accurate and reliable measurement of Breath Alcohol Content (BAC) for those concerned about alcohol intoxication in themselves or others. The FC10 Plus provides Auto, Manual and Passive testing options.

Popular testing uses include workplace and personal testing for reliable and accurate results.

Lifeloc FC10 Plus uses full sized platinum fuel cell technology that powers this globally recognised law enforcement equipment. Lifeloc breathalysers are used in over 35 countries and by many law enforcement agencies, for very good reason - they are exceptionally reliable and accurate!
