At [Core IT](#), we work to improve the productivity of your company through specialised IT support, solutions and services. As Perth's leading IT support company, we provide exceptional support for companies across a variety of industries. We combine our IT support, infrastructure, and consulting experience with our strong work ethic to ensure you continue to achieve outstanding results.

phone

Our Perth-based technical team currently provides IT support for more than 70 companies across Australia and South-East Asia, and puts in more than 15,000 hours work annually. We liaise with each individual client closely so we can provide personalised, efficient, effective, and innovative IT solutions every day.
