3 Chain Surveying remains committed to supplying an accurate and cost effective product to our clients. With detailed knowledge of the construction and mining industries, our surveyors are able to draw upon a large base of experience to meet specific challenges.

Established in 1998, our small and progressive company has consistently supplied survey services to Mackay, Airlie Beach and the Bowen Basin. 3 Chain Surveying is able to draw upon local contacts and practices.

SURVEY SERVICES INCLUDE:

- Civil Engineering Surveying, including Roads,
- Dams, Subdivisions
- Bulk Earthworks
- Building Surveys
- Mechanical Installations
- Bridge Construction Surveys
- Quarry Stockpile Volume Reports
- Digital Terrain Modelling and Feature Surveys
- Mining and Mine Infrastructure Surveys

Marina Surveys, including Piling and Breakwater Construction

Equipped with the latest technology and surveying software, our company has been able to advance within the industry. The ability to supply a consistently fast and accurate service has always been our highest priority.

3 Chain Surveying boasts a perfect safety record, with zero Lost Time Injuries. Safety remains a key issue and our company strives to maintain its safe working practices.
