Telstra

SERVICES

Telstra Introduction:

Our Business Phone System packages include:

New business phone systems: Our range of the latest application-rich IP PBXs and handsets ensure that there's one to suit your organization.

Ongoing maintenance and management: We will become your single point of contact and can service equipment housed on your premises, as well as deliver a range of options including performance reporting, preventative maintenance and PBX software upgrades.

Expert advice, design and installation: Personal and tailored support from your Telstra Enterprise Partner.

Flexible payment options: get a new Telstra Business Phone System all on a single bill.¹

Whether you're looking to expand, relocate or upgrade, a Telstra Business Phone System could improve the way your organization works.
