

Fees:

Our fees vary with the service required. Please contact the office for details.

There are **no "out of pocket" expenses** to **WorkCover, Medicare clients** (those that are eligible, may receive bulk billing), **Third Party insurance** or **Veterans' Affairs** clients. (See below for more details).

Rebates: Privately insured patients receive substantial rebates from their insurance companies.

Concessions: Senior Card concession holders and students paying their own way may request a 10% discount.

A list of fees is available on request for other services, such as:

- functional assessments
- dance assessments
- medico-legal reports
- work site visits and pre-employment screening
- hydrotherapy
- treatment for more than one area or extended treatment.

Worker's compensation, road accident patients, (namely **Third Party Insurance**), or any patient covered by **public liability or similar insurances** should indicate their position.

Following determination of liability, the insurer will be billed directly. Patients are reminded, however, that they are responsible for payment of their accounts should liability be denied.

Medicare rebates are available to clients who meet certain criteria, including bulk billing. Please ring the office for more details.

Repatriation patients: Department of Veterans' Affairs - are eligible for treatment depending on their disability entitlement. The department is billed directly.
