BUILDING CONSULTANCY & INSPECTION

"Peace of mind for your biggest investment since 1994"

About Us

Are you buying? Are you building? Having structural issues?

Building Consultancy and Inspections is proudly one of Western Australia's oldest and most trusted building inspection companies. We've been providing Perth and its surrounds with quality inspections for homeowners, property investors, retail and commercial businesses since 1994, and to date have inspected over 20,000 properties.

All of our inspectors are highly qualified and experienced with strong building backgrounds, meaning we have the necessary industry experience to make informed decisions. You can rely on our inspectors to thoroughly assess the property and provide you with a detailed and accurate evaluation, as well as educated post-inspection advice.

Working with BCI means you're fully indemnified, as we're a member of Master Builders WA and carry up to \$1M professional indemnity insurance.

Why take an unnecessary risk on your biggest investment when we could give you peace of mind!
