Boston**

### About Boston

Established in 1993, Boston Auto Bodies is fully Australian owned and operated. We manufacture aluminium canopies and tool boxes for utes and small trucks and distribute a large range of related products and accessories. We are committed to ensuring we supply a high quality of product and service at all times.

### One Stop Shop

Our showroom is packed with a large range of accessories, ideas and helpful information. Showroom is open 8-5 Mon to Fri. Our product range includes canopies, toolboxes, roof racks, drawer systems, towbars, shelving reverse cameras, electrical accessories, water tanks and cylinder restraint systems.

### Design and Manufacture

The factories located in Cunderdin WA and Goulburn NSW, run on production line layouts and are set up to accommodate custom designs efficiently as well as our standard range of products.

### Attention to Detail

At Boston we believe in getting it right first time, quality checks are completed at the end of each process. Attention to detail is important to ensure the canopy becomes part of the vehicle and not merely a toolbox on the back.

### Supply

Boston Auto Bodies supplies canopies for utes and small trucks across in Australia in most states - Contact Us today for a quote, no matter where you are in Australia!
