LOVE YOUR CRAFT

Love, life, longevity.
All key ingredients of a great kitchen.

At Kitchen Craftsmen we believe that a 'kitchen in a home' is so much more than just a 'kitchen in a home'. It's a hub. It's where laughter reigns, where tears fall, it's from where the family daily news is broadcast. Life happens in a kitchen and it's keeping this in mind that ensures that every kitchen we design, build and install is as individual as you are.

Then of course there's food preparation. Functionality comes into play, features are paramount and practicality is essential. You will find to your delight that we are masters at utilising available space to its full advantage and will create inspired logic to achieve a design that is pleasing both ergonomically and aesthetically.

In terms of your decision making process on who to entrust with your kitchen, you should ask 'what sets Kitchen Craftsmen apart from the rest'? Well, the person that you deal with in our showroom is an experienced designer and not just a sales representative. They have a complete understanding of your needs, budget and aspirations from consultation through to design, manufacture and installation. For you, most importantly, we are master craftsmen and take absolute pride in the quality of our work.

A Kitchen Craftsmen kitchen is built for life, for love, for longevity. Love your craft.

LOVE YOUR CRAFT

Our designs are crafted for you
right here in Western Australia.

Some say craftsmanship's a thing of the past, but not for us. For us, craftsmanship is the delivery of a perfect finish, it's a working functionality that goes beyond the construction of a perfect meal and - because we are involved hands-on with every process from sale and design through to manufacture and installation - it's very personal.

Established in Perth, WA in 1999, Kitchen Craftsmen is a privately owned, family company. Since inception we have built an outstanding reputation for service, quality and an enduring ability to meet customers' needs - from small budgets through to creating beautiful kitchens that are central to some of the state's most luxurious homes.

We pay particular attention to detail at the planning and design stages to ensure that your Kitchen Craftsmen journey is a seamless continuation of work with minimal inconvenience right through to the completion of the project. Our highly skilled craftsmen and strict project management values ensure that your kitchen's installation is as perfect as the initial concept that you fell in love with. Whether your preference is for traditional elegance or modern, cutting-edge design you can be guaranteed that the end result will be tailored to perfection.

Functionality that fits you.

We understand that a kitchen has to fit the people who use it. On top of looking fantastic, its role should be to simplify daily life and add great convenience, which is why we partner with Häfele, the global leader in clever storage technologies. Like Kitchen Craftsmen, Häfele is passionate about providing super intelligent design and a product that delivers incomparable kitchen comforts and convenience through optimal functionality. Häfele famously pioneers ideas for kitchen areas and innovative storage space management.

*"As a cabinet maker I know which drawers are the best to both install and to use - and the best is Blum."
Sean, Cabinet Maker*

An open and shut case.

Functionality is so important and therefore we choose to recommend Blum. With its range of 'perfecting motion' innovations Blum turns the opening and closing of furniture into an experience of comfort and ease. Additionally, because Kitchen Craftsmen designs for the end user, all fittings systems must shout "high quality" with their well-thought-out functionality, faultless design and high durability. Blum products are designed to spark inspiration and create an emotional experience out of day-to-day kitchen tasks. Along with Blum, one of the world's most trusted and innovative brands, we offer you a comprehensive range of elite products.

"I love working with quartz. It's strong and yet so versatile. I'm always proud of the end product." Elliot, Stone Mason

A product we lean heavily upon.

Kitchen benchtops are some of the most used surfaces in any home, so not only should they look amazing but they also need to function well and be highly resilient for constant daily use. Caesarstone engineered stone surfaces provides you with a smart and distinctly modern alternative to products such as marble and granite for kitchen benchtops and splashbacks. Kitchen Craftsmen's long term partnership with the global market leader means we can offer you a product range that delivers a contemporary approach to kitchen design and renovations, whilst maintaining the quality and luxury that you come to us for.

Things that look great on the surface.

Quantum Quartz is a premium Kitchen Craftsmen benchtop, renowned worldwide and containing more than 93% natural quartz, making it an extremely hard wearing, practical and highly versatile surface. These designer stone benchtops reflect the modern style and trends that leading architects prefer and offer your kitchen work space strength and durability, as well as very high resistance to abrasion. Beautifully finished, Quantum Quartz is low maintenance, looks great and will give you the many happy years of lasting beauty and style that you would expect from a Kitchen Craftsmen kitchen.

“There is hardly anything in the world that someone cannot make a little worse and sell a little cheaper, and people who consider price alone are that person’s lawful prey.

It is unwise to pay too much, but it is unwise to pay too little. When you pay too much you lose a little money, that is all. When you pay too little, you sometimes lose everything because the thing you bought is incapable of doing the thing you bought it to do.

The common law of business balance prohibits paying a little and getting a lot...It can’t be done. If you deal with the lowest bidder it is well to add something for the risk you run. And if you do that you will have enough to pay for something better.”

John Ruskin (1819 - 1900)
