

CRANMORE HOME

[Cranmore Home](#) was created by Tracy Lefroy back in 2010. Three babies and three years on it has evolved from a once-off pop up shop, to an events planning, interior consulting, retail shop and online business! With a keen eye for Australian-designed homewares, the search for Cranmore Home's first curated collection of homewares, art and fashion began. Tracy spent hours trawling magazines, design books, and the internet in search of the perfect combination of designers to curate her first collection.
