

Who We Are

At [Ascent Accounts](#), we aim to become an active partner in the success of our client's business. We're an accounting firm that goes above simply lodging your annual tax return and, offer services that go beyond the scope of a traditional accountant role.

Offering strategic business, services such as formulating growth strategies and business mentoring, we play an active role in helping companies to unlock their maximum potential.

Why Work With Us

Free initial consultation – we welcome all new clients for a complementary consultation. During which we will discuss your business goals and plans, and strategize how we can help get you there.

Fixed pricing – we operate on a fixed fee basis, rather than a per hour billing arrangement. Meaning no surprise bills or hidden costs.

Free ongoing advice – we never charge for phone calls or emails, as we believe this to be part of our duty to our clients.
