

Comshade®

EXTRA HEAVY DUTY
KNITTED SHADECLOTH

COMSHADE® is a unique and innovative extra heavy duty knitted shade cloth. It is designed for tension membrane shadesails used in architectural and commercial shade structures. It is UV stabilised to maintain its strength and flexibility under the harsh Australian sun.

Comshade® EXTRA HEAVY DUTY KNITTED SHADECLOTH

Comshade® is ideal for large commercial projects where the fabric is supported by engineering certification, that allows the knitted shade cloth to be placed under higher tensile loadings.

Comshade® offers excellent weight to strength ratios.

Comshade® is heat set, making it much easier to use. It lays very flat so it will not curl or roll up when being marked out, cut and sewn. This means major savings in time and fabrication costs.

Comshade® has less shrinkage and is more stable, while maintaining its strength and over 90% UV protection and shade factors.

Comshade® comes in an excellent range of 16 designer colours.

Comshade® is made to the highest quality standards, and is supported by a 10 Year UV warranty.

Comshade® is made from virgin resins and only the best UV stabilizers from Ciba Speciality Products.

For information and conditions of the warranty, contact your local stockist or visit our web site at www.polyfab.com.au for warranty and maintenance instructions.

Comshade® is made to Australian Standards: AS 4174-1994

New Colours
for 2010
