

SMITH BROUGHTON AUCTIONEERS

About Us

Since 1977, [Smith Broughton Auctioneers](#) specialise in the remarketing of used Mining, Construction, Transport, Agricultural and Industrial Equipment assets. As a leading auction business in Western Australia, Smith Broughton Auctioneers provide a wealth of experience and a commitment to understanding clients' needs which have allowed us to develop long-term mutually beneficial vendor relationships.

Our expertise covers understanding your specific requirements and tailoring a customised solution to suit your needs. We do not believe in a 'one-size-fits-all' approach and ensure our clients' individual objectives are met with an individual solution.

Whether you're looking for industrial or earthmoving equipment like excavators, forklifts, loaders or particular farm machinery, we hold a number of live online auctions all year round, giving you an abundance of equipment options to choose from.

Our goal is simple – we work with you utilising our expertise to maximise sale efficiencies and returns on your equipment.

Services

Smith Broughton Auctioneers assists in the auctioning of trucks and machinery servicing the Mining and Construction industries.

We assist in the buying of equipment for your business. With our online auction system, we will help you find the equipment you need and allow you to place bids from anywhere at any time.

We also assist in the selling of assets through auction. Our extensive database of qualified national and international industrial equipment buyers means your equipment gets exposure to a global marketplace.
