

Optimize your workplace

Workplace & Visitor Management Solutions

One of the biggest challenges for workplaces is making sure that employees and visitors remain safe, secure, and have access to the right tools and resources needed to work optimally.

Here's how Ezy Sign-in helps navigate today's workplace challenges.

Visitor Workflow

Safe and easy visitor management

Replace antiquated log books with seamless contactless visitor sign-ins using QR codes. Alert your hosts and fully customize your guests' experience with your own branding and more.

All you'll need to streamline sign-ins

- Speedy automated sign-ins on arrival for all guests
- Central attendance records of guests in the event of an emergency
- Automated health screening for all guests
- Inform guests on policies & conditions of entry
- Mobile sign-in app available for employees

Contractor onboarding

Secure, compliant contractor approvals

Be compliant in your workplace with automated online regulatory inductions. Easy upload of video and documentation for comprehensive inductions to keep your workplace safe.

Save time with pre-approval features

- Customized inductions with our own videos
- Automate off-site contractor approvals
- Upload regulatory documents for compliance (e.g health certificates)
- Alert hosts of non-compliant contractors
- Data captured for all historical reporting

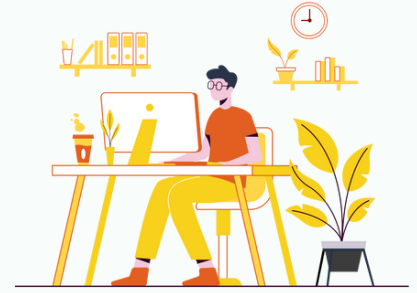

Hybrid working

Optimize for onsite and remote workers

Designed for any size business, book desks and any workspaces available in your office or workplace. Via your self serve portal, simply upload your office floor maps, register your resources and you're done!

Desk & room bookings for any business

- Book desks on the go or ahead of time
- See other work colleagues attendance schedules
- Visibility of co-worker bookings
- Detailed usage reporting to optimize office resources
- Safe and convenient contactless signing in and out using the Ezy Sign-in mobile app

Timesheet management

Optimize time & attendance

Comprehensive Timesheet configurations allow employees to track hours worked and provides an easy way to upload into payroll systems.

Timesheet tracking made easy

- Custom timesheet templates with integration to financial systems
- Fully compatible with MYOB, Xero and Quickbooks
- Configure individual workshifts for each employee
- Powerful mobile app for check in and out feature
- Calculate hours worked, break hours and paid/unpaid times

Everything you need in one neat package

-  Contactless sign-in with QR codes
-  Screen visitors for safe arrival & departure
-  Customised host notifications
-  Desk & meeting room bookings
-  Secure and scalable with cloud tech
-  Track employee time sheets & attendance
-  Pre-approved Contractor onboarding
-  Obtain real-time reporting via portal
-  Safety inductions & compliance screening
-  Customised Kiosk and ID badge printing
