

Art Nurture

Our Art Program helps stimulate the brain, trigger memories and assist communication for those with memory loss.

How it works

Initial Assessment: Our Art Therapist will visit to complete an assessment and develop a support plan.

Ongoing Visits: The Art Therapist will handover to one of our skilled Therapy Assistants who will visit regularly to help you engage in art-related activities.

Review by Art Therapist: We will organise for the Art Therapist to conduct a review after 3 months.

Contacts

Contact Memory Nurture to make a referral or find out how to access the program! Art Nurture can be funded through NDIS plans, Aged Care Packages and privately.
