## Meet our Director

Airmax Solutions.

With over 15 years of hands-on experience in the HVAC industry, I started Airmax Solutions with one clear mission: to deliver high-quality, reliable air conditioning installations with a level of professionalism that stands out.

We specialise in the supply and installation of ducted, VRV/VRF, multi and split system air conditioners across Melbourne, servicing both residential and commercial clients. I take pride in running a team known for being polite, clean, and thorough on-site — getting the job done right the first time, with no shortcuts.

At Airmax Solutions, attention to detail isn't just a promise, it's our standard. From the first phone call to final handover, we focus on clear communication, technical excellence, and customer satisfaction.

I'm passionate about building long-term relationships with clients and builders alike, and I believe trust is earned through consistency, transparency, and showing up on time — every time.
