Grade 8.8
bolts

 Free Dual
Spanner Kit
Included

**AS/NZS 1170.2:2021 Wind Rated | Melbourne-Based Stock |
For Agriculture • Mining • Industrial**

Engineered to AS/NZS 1170.2:2021 wind standards for high wind zones across Australia.

Every Toughcover shelter is designed and tested to meet local engineering requirements.

ToughCover Lock-Clamp System Installation

Uses high-tensile **Grade 8.8 bolts**.
No welding, no hired gear, and no welding crew required.
Your containers remain **undamaged**.
Easily disassembled and **re-installed** at next site!
